

SAFETY DATA SHEET (SDS)

			Section 1. Identi	fication			
Product identifier HY-BIO FLUSH Other means of identification 476							
Recommended use and restrictions on use BIODEGRADABLE LUBRICANT FOR HYDRAULIC SYSTEMS							
Initial supplier identifier PROLAB TECHNOLUB INC. 4531 RUE INDUSTRIELLE, THETFORD MINES, (QUEBEC), G6H 2J1,							
CANADA TEL. (418) 423-2777 FAX : (418) 423-7619							
Emergency telephone number/restriction on use Canada – CANUTEC 24 hour number 613-996-6666							
Section 2. Hazard identification							
Classification of hazardous product (name of the category or subcategory of the hazard class)							
NOT REGULAT		_		,			
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)							
None							
Other hazards known None							
Section 3. Composition/information on ingredients							
Chemical name	(common	name/synonyms)	CAS number or other	Concentration (%)			
None							
Section 4. First-aid measures							
Inhalation	IF INHA	ALED: Remove person to f		rtable for breathing. Call a doctor if y	ou feel unwell.		
Ingestion	IF SWA	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is					
	rapidly	losing consciousness, or is u	nconscious or convulsin	g. Rinse mouth thoroughly with wate	r. Have victim drink two glasses		
				ward to reduce risk of aspiration.			
Skin contact	If skin irritation occurs: Get medical attention. Rinse skin with water (5-10 minutes).						
Eye contact				es (5-10). Remove contact lenses, if p	present and easy to do. Continue		
		If eye irritation persists: Ge					
		s and effects (acute or del					
Indication of imi	mediate n			call a doctor. Do not forget this docu	iment.		
	A		Section 5. Fire-fighti	0			
		zardous product (hazardo		ets)			
		ritant/toxic gases and fumes	•				
Suitable and unsuitable extinguishing media							
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.							
Special protective equipment and precautions for fire-fighters							
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans.							
				be useful in cooling equipment and car			
			tion 6. Accidental re				
Personal precautions, protective equipment and emergency procedures							
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should							
wear the appropriate protective equipment (See Section 8).							
Methods and materials for containment and cleaning up							
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then							
			ction 13). Contaminated	absorbent material may pose the same	e hazards as the spilled product.		
Notify the appropriate authorities as required.							
Section 7. Handling and storage							
Precautions for s							
Wear gloves/protective clothing/eye protection/face protection.							
Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene							
measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers							
for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid							
contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to							
Section 8.							
Conditions for safe storage, including any incompatibilities							
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10).							
Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of							
obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.							

Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: None

Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and c	phomical properties					
	Vapour pressure Not available					
Odour Oil	1 V					
Odour threshold Not available	Relative density 0.916					
pH Not available	Solubility Not available					
Melting/freezing point -23°C	Partition coefficient - n-octanol/water Not available					
Initial boiling point/range Not available	Auto-ignition temperature Not available					
Flash point > 220 °C	Decomposition temperature Not available					
Evaporation rate Not available	Viscosity 37-40 cSt @ 40°C					
Flammability (solids and gases) Not available	VOC Not available					
Upper and lower flammability/explosive limits Not available	Other None known					
Section 10. Stability and reactivity						
Reactivity						
Does not react under the recommended storage and handling conditions prescr	ibed.					
Chemical stability						
Stable under the recommended storage and handling conditions prescribed.						
Possibility of hazardous reactions						
None known.						
Conditions to avoid (static discharge, shock or vibration)						
None known.						
Incompatible materials						
Oxidizing materials; etc.						
Hazardous decomposition products						
None known						
Section 11. Toxicolog	ical information					
Information on the likely routes of exposure (inhalation, ingestion, skin a						
May cause transient eye irritation.	and eye contact)					
	-4 *					
Symptoms related to the physical, chemical and toxicological characteris	stics					
Eye irritation, redness, tearing.						
Delayed and immediate effects (chronic effects from short-term and long	g-term exposure)					
Skin Sensitization – No data available;						
Respiratory Sensitization – No data available;						
Germ Cell Mutagenicity – No data available;						
Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA;						
Reproductive Toxicity – No data available;						
Specific Target Organ Toxicity — Single Exposure – No data available;						
Specific Target Organ Toxicity — Repeated Exposure – No data available;						
Aspiration Hazard – No data available;						
Health Hazards Not Otherwise Classified – No data available;						
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)						
None ATE not excitable in this document						
ATE not available in this document.						
Section 12. Ecological information						
Ecotoxicity (aquatic and terrestrial information)						
No data available for the product.						
Persistence and degradability No data available						
Bioaccumulative potential No data available						
Mobility in soil No data available						
Other adverse effects No data available						

Energy efficient	-					
	Section 13. Disposal considerations					
Information on	n safe handling for disposal/methods of disposal/contaminated packaging					
Dispose of contents/container into safe container in accordance with local, regional or national regulations.						
Section 14. Transport information						
UN number: Pr	roper shipping name; Class(es); Packing group (PG) of the TDG Regulations					
NOT REGULA						
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)						
NOT REGULA						
	roper shipping name; Class(es); Packing group (PG) of the IATA (air)					
NOT REGULATED						
Special precautions (transport/conveyance) None						
Environmental hazards (IMDG or other) None						
Bulk transport (usually more than 450 L in capacity) Possible						
Section 15. Regulatory information						
Safety/nealth C	Canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance					
P • • • •	with the hazard criteria of the Hazardous Products Regulations (HPR).					
	I Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL					
	environmental outside regulations specifics					
	SHA information: This product is regulated according to OSHA (29 CFR).					
	PA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.					
	CSA information: Refer to the ingredients listed in Section 3.					
	rotection Association (NFPA):					
HEALTH: 0	FLAMMABILITY: 1 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.					
	LE: $0 = \text{Minimal}$ $1 = \text{Slight}$ $2 = \text{Moderate}$ $3 = \text{Serious}$ $4 = \text{Severe}$					
California Propo	osition 65: This product may contain traces of a material known to the State of California to cause cancer or other reproductive harm.
